

The Will Erwin
Headache Research Foundation

THE WILL

to find a cure.

A staggering **12% of the American population** suffers from debilitating headaches, including migraines and cluster headaches. Founded by Houstonian Jimmy Erwin, the mission of **The Will Erwin Headache Research Foundation**, is to bring relief to sufferers, globally, who are afflicted with debilitating headaches by funding research focused on finding a cure. We bring together a community of headache sufferers, family, and friends whose lives are impacted by this disorder, as well as researchers and physicians committed to finding a cure.

Inspired by the legacy of a courageous young man, we WILL harness the strength and courage it takes to endure this painful suffering and build hope for a bright future. A future filled with freedom from pain.

We have teamed up with The Memorial Hermann Health System and The University of Texas Health

Science Center at Houston (UTHealth) Medical School to fund leading research dedicated to these neurological disorders, and more importantly, bringing an end to the pain endured.

Join the community of supporters, ready to make a difference in finding a cure for debilitating headaches. Contribute to the research today.

Our Commitments:

- **We WILL** bring a future of clarity – free of pain, pressure, and emotional distress.
- **We WILL** assemble a team of the world's leading researchers and physicians committed to finding a cure and connect the community of headache sufferers, family, and friends whose lives are impacted by this disorder.
- **We WILL** transform the lives of the courageous individuals who endure this painful suffering.
- **We WILL** Cure Headaches. **We WILL** Achieve Freedom from Pain.
